## SENATE DEFEATS PEACE TREATIES

arbitration, in accordance with the provisions of this treaty."

"Memored" Monroe Dectrine.

Many members of the Senate contended
that this clause bound the United States
to subsuit to arbitration questions involving the Monroe dectrine, the admission
of allens, to this country, and other
questions of vital interest and national
honor. In this contention members of
the Senate were supported by Col.
Roosevott. President Taft and Secretary
Knox declared that the United States
would not be bound to arbitrate such
questions, and that the Senate would
not surrender any of its treaty-making
prerogatives in ratifying this clause.
The majority of the Senate committee
on Foreign Relations tast August submitted a report in which they recomriended the elimination of the high
joint commitsion frame. Realizing, however, that any change in the form of
treaties would jeeperdine their acceptsince by Great Britain and France, the
President's supporters in the Senate inserted in the resolution ratifying the
ireaties a clause reserving to the Senate
in fact the United States its full powers
in regard to submitting questions to aritration, whether under the findings of
the Joint high counterfor that the
particular in their original forms safeing the resolution of ratification, because,
had been their contention that the
contest in their original forms safesaried these rights of the Senate. It
as on the basis of this compounds
in their resolution of ratification, because,
in their contention of the first and the resolution
in their contention that the
contest in their original forms safesaried these rights of the Senate. It
as on the basis of this compounds
at the President's supporters fully excelled mail the vote was taken that the
iministration's reaties would be ratid.

## CONSIDER PENSION FUND PROPOSAL

House Committee to Take Up Bill Allowing Use of District Revenue to Meet Deficiency.

will be the principal massire called up before the House District Committee at its session this morning. Other measures, notably the bill introduced by Chairman Johnson at the request of the District Commissioners, which puts the police and firemen's retirement plan on a permanent basis, will probably be heard, but not be voted on.

Mr. Redfield announced yesterday that the would call up his bill this morning and expected to get a vote on it before the committee adjourned. This measure was igiroduced two weeks ago and differs from all previous bills, tending to make up the existing deficiency in the fund in that it allows any District revenue to be used where other measures have specified certain sources from which this fund could draw.

In connection with the punsion matter the Commissioners youbcrisay forwarded to Chairman Johnson an adverse recommendation of the bill introduced by Representative Kahn which pruposes to pension at \$30 a month ten firemen who served in this city under Mayor Sayles J. Buwen from 188 to 189.

In their opposition to the Kahn measure the Commissioners say:

"If the Commissioners were to recommend the precedent which this bill proposes to set they could not consistently refuse to act for our bill of the proposition to the call of the proposition of the department, no matter how remote his period of services.
